Hello

I saw the pictures were not properly attached in the last email, sorry for this hahaha i will add them here. Cheers

Thank you so much for giving for giving the email. This is the first one I send. 1st of september on sunday is a good moment for this. The new school year begins.

I think i will try to share an email about once a week if I have the time. Often they will probably be just a post from the blog on my website (which amounts to daily art and life experiments), but it is also nice to experiment a little with the entire format, length and content of the mails so things will change along the way. I would really like it if you wrote me back sometimes, just to let me know what is up with you or what you think about something. The entire point of this undertaking is to be generous and share, wether that be artistic experiments, curiosity or just what is going on.

The past time has been very beautiful for me. This time last week I was in a French café in Riga with Laura-Maria and Gustavs. It was the last day of my stay in the Baltics. I was there to do a summerschool in VARES, located in Valga/Valka on the Estonian/Latvian border. We had beautiful experiences there and made really fun work, to read about the experience and see the work I made click [HERE](#).

Yesterday I watched the movie 'Fantastic mr fox'. Upon its end, the thought occured to me that this movie felt like it was made just for me. I love it so much and almost got tears in my eyes when the wolf raises its fist near the end. It is so funny and beautiful and absurd.

the movie: <https://w1.nites.is/movies/fantastic-mr-fox/> It is one of my dreams to work on a movie like this in some creative capacity, impactful!!

Hereby the blog-post cinematography for the past days, take your pick :).

This video is a tryout mask that I made and the eyes are showing a video of a mouse being toyed around with by a cat. The mouse probably died some time after the video ended. It is a pretty obvious video, just watching, not doing anything else, watching two displaced, domesticated animals kill or die

the title is pretty self explanatory, the video maybe not as much but its kind of beautiful nonetheless.

This is today's video, not on my youtube channel for once. It was made with a nintendo 3ds in a park called BLM.

Despite the boring title I really like this one. Just me showing every picture in my camera roll from the past two weeks. The music is from this strange 1978 (not 1987) movie we watched in Valga.

Thank you to artgrOup for showing us the movie 'vertical features remake'.

I LOVE MY FRIENDS SO MUCH AND THEY LOVE ME BACK SO MUCH

Let me know what you think, feel or what is going on with you. If you feel like it, share music with me if you have any songs you are listening to in these days please :).

A special thank you to my parents in whose house I have been staying for the past week ♥♥.  
(ps. if anybody can help me get an apt/room or a job in Rotterdam starting from oct/nov let me know)

Much much much love and thank you again  
Jacob
